## How We Are

**MEEZA Medical** Company was established in the Syrian Arab Republic to offer a comprehensive range of high-quality healthcare solutions and technologies at world-class standards. The company seeks to contribute to the country's development, help advance the healthcare sector in the Syrian Arab Republic, and build a knowledge-based society, enhanced by the latest global technologies and relying on national expertise and personnel.

## **MEEZA**

The name is inspired by our authentic Arabic language, expressing the excellence the company strives to provide to its clients by offering a range of medical services and solutions that keep pace with the latest developments in medical technology while maintaining high quality standards.

## Our Vision

To be the preferred provider of the latest healthcare solutions and assistive devices in .the Syrian Arab Republic

## Our Mission

Service excellence is the norm, not the .exception
